

Universeel materiaal voor precisieonderdelen en heeft een lage vochtopname

ISO POM polyoxymethylene; polyacetal; polyformaldehyde
 Shape Rod
 Color Black

Material information

Measurement tolerance 2768-mK

Very high dimensional stability so suitable for precision parts High mechanical strength, stiffness and hardness. Very high resilience. Good sliding properties and wear resistance This is an unfilled polyacetal copolymer type. The copolymer has good resistance to hydrolysis, strong bases and thermo-oxidative degradation.

We provide product information as known by us with great care. We cannot accept any liability for errors and/or inaccuracies and/or incompleteness. Please

note that our products are intended for professional use only. For high impact applications and/or combinations of limit values we always recommend to have the properties specific to that situation verified by us. If there are multiple specifications for a product we will use the standard of 2mm or the closest specification.
